The Choir's comprehensive music curriculum offers students the opportunity to progress through a series of training choirs to professional-level performing groups. Besides offering an exceptional education in vocal technique and music theory, the organization strives to offer lessons in creativity, expression, poise and engagement with many cultures in a fun and nurturing atmosphere and special groups for kindergarteners and pre-schoolers. If your child enjoys singing, open the world of music to them by enrolling them in the upcoming semester. Our rich learning environment helps each student to learn teamwork, music reading and music theory, and make new friends. Children with no experience are encouraged to apply.
